"From the Editorial Desk"

*"Not by sight it is grasped, not even by speech
Not by any other sense organs, austerity or work
That subtle self is to be known by thought"*

At the end of every academic year, the college magazine, "VISION" is published which is a truly literary and creative document of the talents of our students. The magazine committee is composed of the student editors, sub editors and staff advisors. It also provides a panoramic view of the cultural, academic, sports and literary activities and achievements of the college during the academic year.

'The life is a learning book and it is a self belief that requires no faith other than common sense, no revelation other than open eyes and a mind open to evidence, no guru other than your own self.'

"Let it enlighten us like the Bodhi tree"

We started our sail in our own ship
Across blue and black faces of the sea
It moved by splitting its face temporarily
And reunited as it went by
We were five with the strength of fifty
We were one in any difficulty
We are the ones, who first started this sail
Believe no one can cross this again.

She tried to put on her pervasive experience in front of BVUSDE students so divinely by explaining what is leadership? A leader is who translate the vision into reality. A leader is one who knows the way, goes the way and shows the way. Some of leadership qualities are Honesty, Ability to Delegate, Communication, Confidence, Commitment, Positive Attitude, Creativity, Intuition, Ability to Inspire etc. Someone has rightly said that “Education is not of a pail but the lighting of a fire”. As BVUSDE students we must give credit to our respected Director Sir, faculty member and the Co-ordinators who ignite this fire in students by conducting such powerful events to boost students towards their goals.

To conclude she winded up this seminar by explaining that “No one is a born leader” but one can transform to be the best leader if focused on certain parameters explained by her as to have a clear Vision, Know and utilize your strengths, Be Passionate, To live as per morals and values of life, Serve as a role model, Set definitive goals and follow concrete action plans, Maintain a positive attitude, Improve Communication Skills, Motivate others to give their best at situation prevailing in life, Be willing to admit and learn from

Remarkable

The efforts of the students were to make the day memorable for teachers so they first started with the felicitation and to highlight some of the special teacher's surprised gifts were planned for them. After felicitation speech was given by Director Mr. A. R. Deshmukh, Dr. Vikas Nath and Ms. Savneet Kaur, which gave students information that how vigorously teachers have to work to deliver the correct and updated information to the students. Students tried to make teacher's feel like youngster's and recall all their past memories by singing songs for them as per their personalities. The center of attraction of the entire program was "Antaakshari" been initiated by students so as to cheer the moment with the teacher's. This event conducted by some of sincere students was planned well with availability of cake and snacks for the faculty. To conclude teachers are the most important people in life as "one true mentor can turn the student's life to success or failure too". It is truly observed that teachers are like back bone of our society. Teachers teach students very carefully & sincerely just like their own children. It is well said that teachers are greater than the parents. Parents give birth to a child whereas teachers shape his/her character &

make future bright. Our parents are responsible for giving us love & quality care however our teachers are responsible for making whole future bright & successful. They let us know the importance of education in our life through their continuous efforts. As well teacher give most of the times to student's, as students we get very less chances to give them tribute for what they given to us, this is the best day for us to pay show respect and love to them. "There are two kinds of teachers: the kind that fills with so much quail shot that one can't move, and the kind that just gives a little proud behind and one jump to the skies." This event has ended by leaving imprints of beautiful memories to cherish forever.

BVUSDE “KASAULI & CHANDIGARH TRIP”

BVUSDE organized Kasauli trip and squad of 40 students went with Ms. Savneet Kaur and Ms. Megha Sehgal (Co-ordinators BVUSDE). Ms. Anuradha Singh, Mr. Tanaji Holmukhe and Mr. Sanjeev Kumar (Non-teaching Staff Members) in Volvo for 4 days and 3 nights. The trip started at 8.00 in the morning to the small hill station in the Himalayas and is among one of the best holiday choices over the globe. Kasauli was named from a flower called “Kasool” and best known for its pristine and unspoiled beauty with the height of 1927 meters from sea level. The journey started with full enthusiasm in the students to see hill station beauty and also to procreate great bonding with the faculty & comates by initiating great memories which can be embraced throughout life. Faculty were amiable with the students in comparison with their just different approach in college premises so as to let students enjoy the

journey with leverage but with in discipline. The co-ordinating faculty tried to know the students more by interacting with them more so as to avoid boredom throughout the journey. Students were playing games, singing, listening to music and was watching live movies in bus which kept them so occupied that they didn't felt any tiredness or boredom. Bus drivers were skilled and the halts were also pre decided for lunch/dinner during the journey. Finally after the day journey the bus reached to destined hotels where one room were allocated to group of 3 students and the faculty also settled to their rooms to explore more next day. The very next day students saw the actual beautiful view of residing

hotel in day light. The best time to visit Kasauli is between April to November, when the climate is pleasant and luckily trip was planned at the best of its time. The students were taken to Monkey point which gives amazing views of complete Chandigarh and Kalka. Besides, there were churches like Baptist church, which was worth a visit. The pleasant weather, beautiful views and good hosts for whom "Serving their guests is as good as serving god himself" was more sufficient cause to enjoy to the best. This trip was not only to enjoy but to also learn for the students that how just by giving the best welcome to their guests the small city is earning great business to develop or to sustain its beauty. To conclude these small trips helps students to understand their faculty better and also generates curiosity among them to explore more. In a way exploring habit helps students to learn more and more about their country and also teaches them management of finances, emotions, personal hygiene and help them to be independent. Students look forward for such trips as "The more one explore the world, the more one realizes in every country there's a different aesthetic. Beauty really is in the eye of the beholder".
